When guests arrive at O'Hare they may take either **American Taxi** or **303 Taxi** to travel to Techny Towers (rates are noted above). When calling the taxi service, convey that we are a preferred vendor to American Taxi and we have a corporate account with 303 Taxi. This will ensure the rate as well as direct the driver to our facility.

After you have all of your bags in hand, contact the taxi company. If you choose American Taxi and use the Courtesy phones near baggage claim, select "**The Real American Taxi**" as there are various *American* named services.

Either company will give you a taxi number and direct you to the **center** island on the lower level where you will wait for the taxi to arrive. Suburban taxis are not allowed to pick up a passenger without a pre-arrangement. The Chicago city taxis charge one and a half times the meter rate to take passengers to the suburbs. They stop in the **inner** lane of the lower level. We suggest that you not take a Chicago taxi!

Techny Towers Guest Services will be happy to make your return reservations.
